**TO WHOMSOEVER IT MAY CONCERN**  
**Word of Appreciation for skid quality on fabrication and assembly.**

We have placed Order of 8" x 900# and 12" x 900# Pressure Reduction skid and 12" x 600# and 8" x 600# Metering skid for Reliance Gas Pipeline Limited, Dahej Nagothane Liquid ethane DNEPL (M017) project. To M/S Cryogenic Liquide Pvt Ltd for Skid manufacturing, Testing and supply.

P.O. Ref: M017 1410 AND M017 1411 amd 1 DATED 06-MAY 2016

Inspired fabricator who is doing first skid for reliance and utilized their strength for quality work

Implemented first time cold insulation with specific requirement of customer / end user i.e. reliance.

On job learning

Painting work was challenge having frozen characteristic of paint beyond 15 mins after mixing.

Deliver results in an uncertain world

The FAT was conducted at (Cryogenic Liquide Pvt. Ltd.) premises on 25th and 26th May 2016 in presence of Reliance team from Mumbai (Head Office) and Nagothane (Site). It has been an outstanding team effort by all individuals who have worked assiduously for days and nights to make FAT a success. Appreciation / Feedback of END User and customer i.e. Reliance team during FAT are quoted below:

"We have conducted / witnessed several metering skids FAT's from different overseas vendors also. workmanship on the skid offered is much better than the overseas vendors"

It is our experience that vendor is always use temporary arrangements for FAT" to demonstrate functionality of FAT manual. Against that M/s Cryogenic have offered FAT with complete setup ready and complete integrated FAT (Automation Panels + Skid) was offered.

**"Overall job is completed and delivered successfully with in contractual delivery period.**
